in Boots' is a m7thical personage, but the dog in boots is no imaginary creature. In the regions of eternal snow and ice, where the only beast of burden is the dog, the cold is sometimes so in-tense that sharp icuses form between the claws of the canine sledge travelers. This causes a most serious obstacle to the speedy progression of the dogs, and would, after a lew days, render them utterly unfit for their laborious duties, as the leicies grow larger and larger as they go on, until the poor creatures are quite unable to stand. 'I he oldest dogs, however, will every now and them stop and bite off the icicles from their feet. Not so with the novice. He trudges wearly along; every step he takes adds to his torture, and after a time every imprint of his foot on the snow bears a red stain from his cut and bleeding paws. At such times the dog boot is called into requisition by the driver, principally for policy. but oscasionally, let us hope, out of humanity. The dog boot is generally made of raw hide, and is simply shaped like a small bag or pocket. This is drawn over the foot of the animal and made secure by tying it round the ankle

My head achieved all the time. The matter accumulated so rapidly in my head and threat that i could not keep them free. Frequently at hight I would spring out of bed, it seemed to me, at the point of suffocation. I would then have recourse to every means in my power to disloke the muces from my throat and head before being able to sleep again. For a period of six years my tonsils were therated and so much inflamed that I could with difficulty swallow. I finally consulted an eminent surgoon in regard to anoperation on them, but at his request postponed it. The constant inflamentan and oliverallon in my throat caused by the poisonous matter dropping down from my head had so irritated and inflamed my hungs that I cough and bed surging to the feeth, grew take, and showled every symptom of an early death by consumption. Catarrh Remedy

IT SPEAKS FOR ITSELF.

ROCRPORT, Mass., April 2, 1872,
Mr. Editor—Hawing read in Your paper the reports of the remarkable cares of catarrh, I am induced to tell what I know about catarrh, and I fancy the "sauff" and "inhaling tube" makers—mere dollar grabbers—would be glad if they could emblazon a similar cure in the papers. For 20 years I suffered with catarrh. File masal passages became completely closed. Sauff. dust, ashes, inhaling tubes and "sticks" would not work, though at intervals I would sniff up the so-called catarrh sauff, until I became a valuable tester for such medicines. I gradually grew worse and no one can know how much I suffered or what a miserable being I was. My head ached over my eyes so that I was confided to my bed for many successive days, suffering the most intense pain, which at one time lasted for its hours. All sense of faste and smell gone, sight and hearing gone, nervous system shatter-IT SPEAKS FOR ITSELF. most intense pain, which at one time insted for les hours. All sense of hate and smell gone, sight and hearing gone, nervous system shattered and constitution broken, and I was hawking and spitting seven-eights of the time. I prayed for death to relieve me of my sufferings. A favorably notice in your paper of Dr. Sage's Catarh Reme'ly induced me to purchase a package and use it with Dr. Sage's nasal douehe, which applies the remedy by hydrostatic pressure, the only way compatible with common sense. Well, Mr. Editor, it did not care me in three-fourths of a second, nor in one hour or month, but in less than eight minutes I was relieved and in three months entirely cared, and have it mained as for eyer io months, While using the Catarh Remedy I used Dr. Pierce's Golden Medical Discovery to purify my blood and strengthen my stomach. A also kept my liver active and bowels regular by the use of his Pleasant Purgative I'c'ets. If my experience will induce other sufferers to seek the same means of relief, this letter will have answered its purpose.
